- **Secondary-School Education till (Class 10th)** passed from **Meghalaya Board of School Education.**- Full-time on campus.

Professional Experiences :-

- **React Frontend Developer @ Tokn Inc** - **(Full-time)-Remote**

Tokn Music was founded in 2021 to unlock the potential of the music industry by bridging connections and providing mutually beneficial value to all participating parties. The company enables musicians to build additional sources of revenue by selling streaming royalties to fans and investors through our order matching engine marketplace. **based in 1167 Willow Lake Rd, Discovery Bay, California 94505 United States**, I worked in this role from **September 2021** to **August 2023.**
(Company Page :- https://www.linkedin.com/company/tokn-music/)

Role and Responsibilities :-
- Developed and maintained web applications using **React JS**, ensuring seamless user experiences and responsive designs.
- Built reusable components and front-end libraries, reducing development time and improving code efficiency.
- Optimized website performance by implementing best practices, including code minification, image compression, and lazy loading techniques.
- Collaborated with cross-functional teams to ensure smooth integration of front-end and back-end functionalities.
- Successfully delivered the **"Tokn Music" Minimum Viable Product (MVP)** using **React.js**, meeting all project requirements and deadlines.
- Implemented blockchain technology into the web platform, enhancing security and transparency for financial transactions.
- Documented UI components and design patterns, creating a comprehensive library for future development and maintaining consistent visual styles.
- Conducted code reviews and provided constructive feedback to team members.
- Stayed up-to-date with the latest front-end development trends and technologies.

Skills :- **HTML, CSS, Javascript, Adobe-XD, Node-JS, Bootstrap, React-Js, and Redux.**

- **Junior Software Developer @ Suggaa Ventures Pvt Ltd.** - **Full-time)-Hybrid**

Suggaa is an online cab aggregator service that focuses on providing safe and comfortable rides for customers and the best-in-class earnings and savings opportunities to driver partners. **based in 1139, Maruthi Complex, RR Nagar, Bengaluru, KA 560098, India**, I worked in this role from **August 2020** to **August 2021**. (Company offical website:- https://suggaa.in/)

Role and Responsibilities :-
- Worked on the UI of a mobile app built in **React Native** and **Tailwind CSS**.
- Developed responsive **UI components** that adapt to different screen sizes.
- Collaborated with UX designers and developers to implement new features and design changes.
- Conducted code reviews and provided feedback to ensure high-quality code and adherence to best practices.

Skills :- Figma, HTML, CSS, Javascript, React Native, and Tailwind CSS.

- **Web Developer @ The Institution and Organisation of Swami Vivekananda - (Internship)-Onsite**
  [Ramakrishna Mission Vivekananda Cultural Centre, Shillong, Meghalaya, India]

I worked as a web developer for **Ramakrishna Mission Vivekananda Cultural Centre** from **April 2019** to **Octuber 2019.** The project involved developing an online examination web-portal to conduct exams for the organization. The institution is **based in Shillong, Meghalaya, 793001 India,** with the (Institution and Organisation website link: https://www.rkmshillong.org/.)

Role and Responsibilities :-
- Developed an online examination system using **PHP** and **MySQL**.
- Designed the user interface for the system using **HTML, CSS, Bootstrap**, and **JavaScript.**
- Created a secure login system for students to register and access the examination server.
- Implemented features such as saving and checking answers, correction of answers during the examination, and automatic logout.
- Built admin and teacher panels for managing user profiles and setting up question papers.
- Enabled immediate display of marks after students submitted their papers.
- Reduced the required labor force and improved accuracy through the online examination system.

Skills :- HTML, CSS, Javascript, Bootstrap, PHP, and MySQL.

Language Proficiency:-
